AUTOMOTIVE LEATHER

Love Your Drive®

Imagination Guide

You dream it. We'll make it.

Katzkin is the nation's premier manufacturer of custom leather-trimmed interiors for most cars and trucks on the road today. These are not slipcovers. Every Katzkin interior is an upholstery replacement, engineered precisely to OEM specifications, handcrafted with materials that exceed those used by vehicle manufacturers, and professionally-installed for a perfect factory fit.

Katzkin offers the resources of a professional design studio, allowing drivers to choose from over 10,000 pre-designed interiors, as well as the freedom of choice for drivers who want to design their own custom interior. With colors, materials, stitching and many other options, there's no limit to the possibilities.

Katzkin has been safety tested and approved by independent laboratories and OEM vehicle manufacturers. We provide the industry's longest and most comprehensive warranty. And Katzkin has been trusted by leading premium vehicle builders and other automotive companies for more than 40 years.

Katzkin has the fastest and only USA-based manufacturing operations. Ready-to-ship, in-stock interiors are available through a nationwide warehouse network supplying our more than 3,000 restyling centers, and with unmatched sales and marketing support.

See for yourself on these pages why with Katzkin you're going to **LOVE YOUR DRIVE.**

You have more to choose than just color.

Katzkin offers a truly amazing range of materials to start with BEFORE you even pick a color. So, no matter what your lifestyle is, or where you drive, we have the right type of material to meet your practical, adventurous or quirky side. Or even all three of those sides.

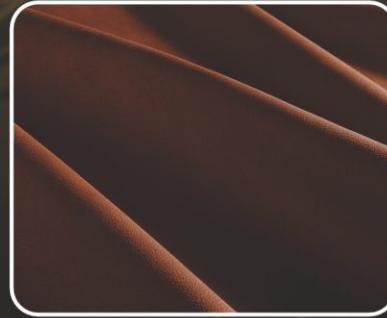

katzkin®
AUTOMOTIVE LEATHER

Our Premium leather, available in 70 colors, is formulated to meet and, in most cases, exceed all the specifications for leather offered from vehicle manufacturers.

TUSCANY™
FINE AUTOMOTIVE LEATHER

Tuscany turns luxury into opulence. This is the softest leather ever offered for automotive use, and despite its supple finish it still meets the highest standards of durability.

katzkin®
OUR TOUGHEST EVER **XT**

Wherever you take it, Katzkin XT can take it. Twice as durable, and thicker than our Premium leather, XT provides extreme durability for the most extreme conditions.

Wherever you drive, Katzkin has the materials to get you there...leather permitting.

Put the Old West on your new saddle with Outlaw. The look of intricately tooled leather - in a variety of colors - adds that vintage touch of the frontier .

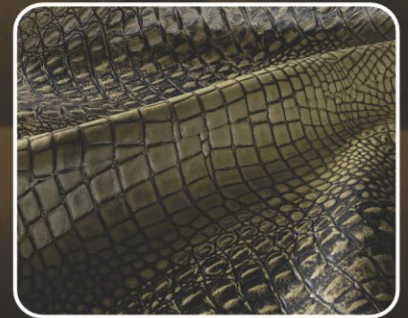

When you just want a hint of color, let a little peek through the square perforation of Barracuda from the color-dyed underside of our Premium leather.

OEM approved SuedeZkin is available as an accent on any Katzkin pattern. It keeps you snug in your seat, staying warm in the winter and cool in the summer.

When suede and leather don't move you, move on up to this collection of synthetics like Carbon Fiber, or crocodile embossed cowhide, or just unusual colors.

MATERIAL CHOICES

Choose any of Katzkin's leather colors as a 1-tone, a 2-tone or even a 3-tone.

BLACK	DK GRAPHITE	GRAPHITE	CHARCOAL	LT. GREY	LAPIS	LUNAR GREY	MIST GREY	PLATINUM	STONE	SMOKE	ICE GREY	GREY	ASH

COLORS & ACCENTS

This book is only a tool to get you started. Printed colors may not appear accurately. DO NOT USE for color matching. When it's time to actually select your design, you must refer to the physical samples which are available on the Katzkin Swatch Deck. Leather is a natural product, therefore colors may vary from one dye lot to another. Katzkin reserves the right to change or discontinue colors at any time without notification. This selection deemed accurate at time of publication, July 2025.

CONTRAST STITCHING OPTIONS

When you just want a touch of color to accent your seats, a contrast stitch works perfectly.

Why settle for traditional perforation if technology allows you the opportunity to really make a statement in the most subtle of ways. Our TekPerf styles provide personalization that requires a second glance when looking at that stunning new interior.

TEKPERF

TekFusion™

With the popularity of TekStitch and TekPerf, it was only natural that we get these two kids together. Now our pattern stitching and perf have been combined into TekFusion.

Since technology has advanced to a point where we can perforate with precision, we can lay the holes safely within the pattern stitch lines created by our TekStitch machines. This opens up possibilities in design we could only dream of just a few short years ago.

TEKFUSION

Now we've really stepped up our game. Nothing we've ever offered creates a look and a feeling quite like TekArt.

A thin, but durable printed fabric lies beneath our usual interior materials, which are perforated to allow portions of the design underneath to peek through. This creates a unique visual that changes with your point of view.

TEKART

katzkin® Express Sew™

If it's upholstered, Katzkin can RE-upholster it.

Even if we don't have a pattern for your ride, Katzkin has a solution for that, too

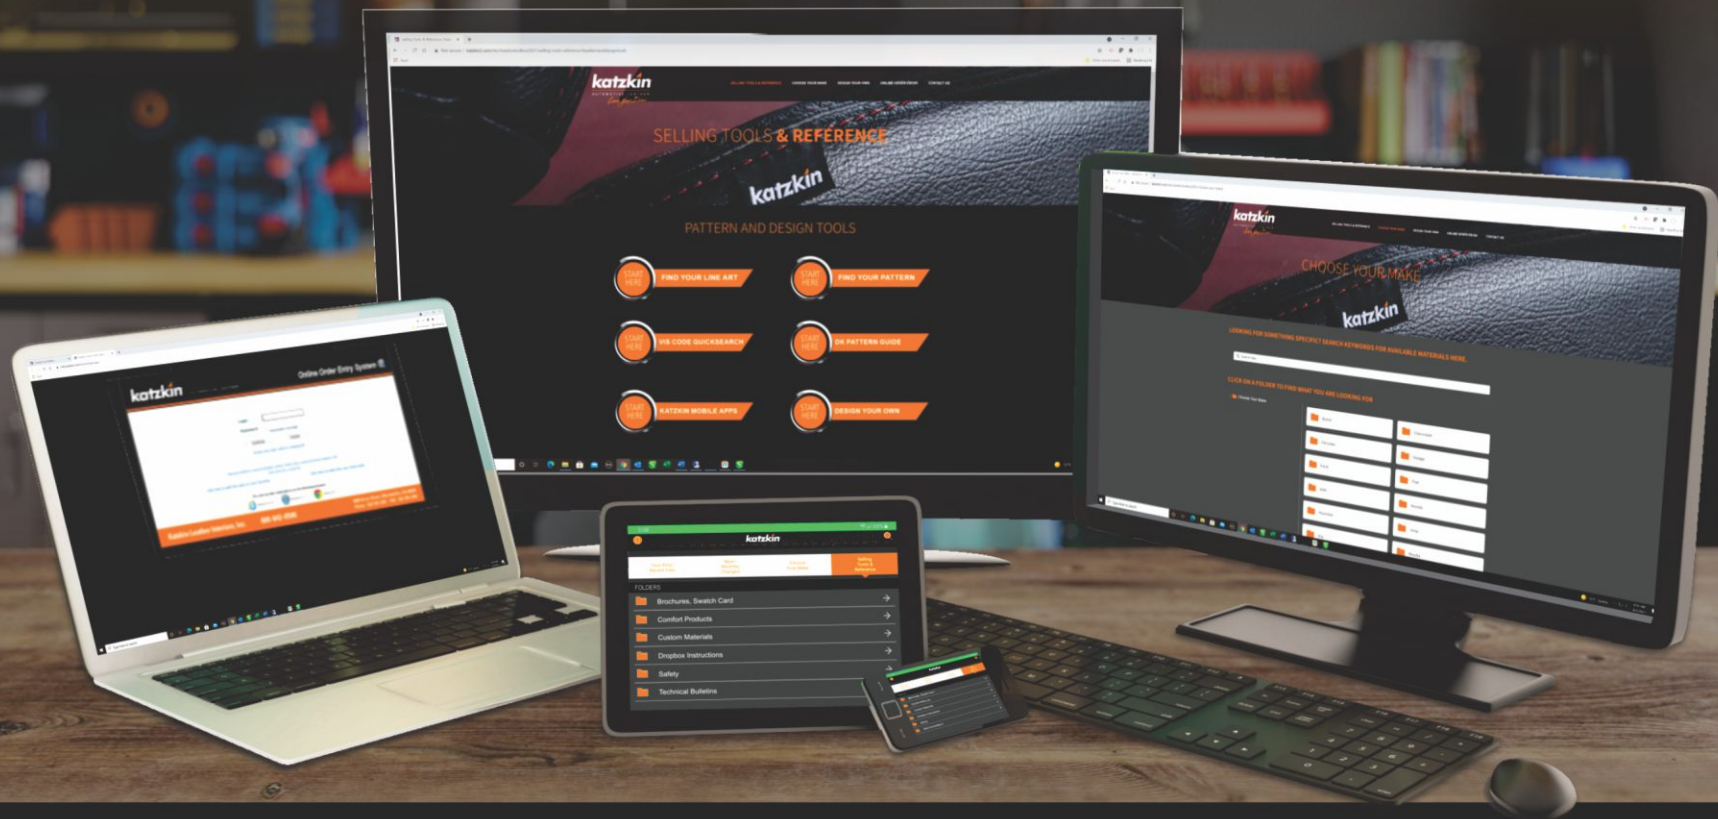

There are virtually no limits with Katzkin's **ExpreSew**, so drivers of any year, make or model can experience the luxury of custom leather. 1970 Mustang? 2016 Alfa Romeo? Your Harley? Even a golf cart. We want you to **LOVE YOUR DRIVE** ... whatever you drive.

ANY vehicle, **ANY** year, **ANY** model!

The only interior design configurator in the industry

In addition to the thousands of designs created by our design studio, you can put your own design hat on. Katzkin gives you the power of an online configurator that displays your actual seat based on your year, make, model and trim. You can see your seat in literally millions of combinations, swapping colors and options. Be careful, though; people have lost hours playing around with this tool.

TOOLS

Taking interior comfort to a whole new level, Katzkin also offers seat heating and cooling with

AUTOMOTIVE SEAT HEATING & COOLING
DegreeZ™
by **katzkin®**

3 Levels of Heating
3 Levels of Cooling
1 Simple Switch

DegreeZ is a complete OEM-quality climate control system for your seats. Heating is fast and evenly distributed. And the cooling is more than just a fan blowing ambient air around; active cooling technology actually reduces the temperature of the intake air by as much as 15 degrees. Driving comfort has never been this convenient.

With all these choices, Katzkin could make an interior for every vehicle on the road today, and no two would be alike. So, go ahead and design an interior that's as unique as you are.

Visit katzkin.com to get started.
